(54) Title: REACTION DEVICE FOR ORGANIC SYNTHESIS

WO 01/72411 A1

(57) Abstract: The present invention relates to a reaction vessel for organic synthesis and a block device for the reaction vessel and synthetic method of compound using thereof. More particularly, the present invention provides a solid phase synthetic reaction vessel and a block device for the reaction vessels which are capable of simultaneously synthesizing chemical libraries by combinatorial chemistry method automatically or semiautomatically.
